## Subject Index

- acetoxylation
  - Propylene oxide synthesis via propene acetoxylation over supported palladium and platinum catalysts followed by cracking of glycol acetates in a melt of potassium acetate 1
- acidity
  - Pillared clays: characterization of acidity and catalytic properties and comparison with some zeolites 23
- aluminium-pillared montmorillonite
  - Catalytic activity of nickel sulfide catalysts supported on Al-pillared montmorillonite for thiophene hydrodesulfurization 77
- Amberlyst-15
  - Direct Fries reaction of resorcinol with benzoic acids catalyzed by zeolite H-beta 87
- anaerobic conditions
  - Vanadium oxides as regenerable reagents in the oxidation of butan-2-one to diacetyl 39
- benzene alkylation
  - Effect of water in the performance of the "solid phosphoric acid" catalyst for alkylation of benzene to cumene and for oligomerization of propene 177
- benzene complete oxidation
  - Complete oxidation of benzene on manganese dioxide by ozone 17
- butane-2-one
  - Vanadium oxides as regenerable reagents in the oxidation of butan-2-one to diacetyl 39
- 1,4-butyne-2-ol
  - Kinetics of the synthesis of 1,4-butyne-2-ol over a copper-bismuth/magnesium silicate catalyst 123
- calcium oxide
  - Calcium oxide as a catalyst for the isomerization of 5-vinylbicyclo[2.2.1]hept-2-ene to 5-ethylidenebicyclo[2.2.1]hept-2-ene in the liquid phase L19
- catalyst characterization IR
  - Catalytic and spectroscopic studies of vanadium oxide supported on group IVb and Vb metal oxides for oxidation of toluene 197
- catalyst characterization XRD
  - Oxidative dehydrogenation of propane on vanadium supported on magnesium silicates 159
- catalyst-screening
  - Pillared clays: characterization of acidity and catalytic properties and comparison with some zeolites 23
- catalyst stability
  - Role of sulfur in a skewed reforming catalyst with a low platinum content and a high rhenium-to-platinum ratio 133
- chlorinated  $\gamma$ -alumina
  - Chlorinated alumina and its catalytic behavior in selective polymerization of isobutene 113
- chlorofluorohydrocarbon
  - Ambient temperature catalytic fluorination of  $C_1$  to  $C_3$  chlorohydrocarbons and related compounds using oxide-supported organic layer catalysts 67
- chlorohydrocarbon
  - Ambient temperature catalytic fluorination of  $C_1$  to  $C_3$  chlorohydrocarbons and related compounds using oxide-supported organic layer catalysts 67
- coke formation
  - Pillared clays: characterization of acidity and catalytic properties and comparison with some zeolites 23
- copper/zinc oxide/alumina
  - Kinetic mechanism for the reaction between methanol and water over a Cu-ZnO- $Al_2O_3$  catalyst 145
- copper-bismuth/magnesium silicate
  - Kinetics of the synthesis of 1,4-butyne-2-ol over a copper-bismuth/magnesium silicate catalyst 123
- cumene synthesis
  - Effect of water in the performance of the "solid phosphoric acid" catalyst for alkylation of benzene to cumene and for oligomerization of propene 177
- deep desulfurization
  - Deep desulfurization of light oil. Part 2: hydrodesulfurization of dibenzothio-

- phene, 4-methyldibenzothiophene and 4,6-dimethyldibenzothiophene L1
- dibenzothiophene  
Deep desulfurization of light oil. Part 2: hydrodesulfurization of dibenzothiophene, 4-methyldibenzothiophene and 4,6-dimethyldibenzothiophene L1
- 4,6-dimethyldibenzothiophene  
Deep desulfurization of light oil. Part 2: hydrodesulfurization of dibenzothiophene, 4-methyldibenzothiophene and 4,6-dimethyldibenzothiophene L1
- direct Fries reaction  
Direct Fries reaction of resorcinol with benzoic acids catalyzed by zeolite H-beta 87
- esterification  
Direct Fries reaction of resorcinol with benzoic acids catalyzed by zeolite H-beta 87
- ethane dehydrogenation  
Homogeneous and heterogeneous contributions to the catalytic oxidative dehydrogenation of ethane 49
- ethene  
Homogeneous and heterogeneous contributions to the catalytic oxidative dehydrogenation of ethane 49
- 5-ethylidenebicyclo[2.2.1]hept-2-ene  
Calcium oxide as a catalyst for the isomerization of 5-vinylbicyclo[2.2.1]hept-2-ene to 5-ethylidenebicyclo[2.2.1]hept-2-ene in the liquid phase L19
- fluorinated  $\gamma$ -alumina  
Ambient temperature catalytic fluorination of  $C_1$  to  $C_3$  chlorohydrocarbons and related compounds using oxide-supported organic layer catalysts 67
- fluorination  
Ambient temperature catalytic fluorination of  $C_1$  to  $C_3$  chlorohydrocarbons and related compounds using oxide-supported organic layer catalysts 67
- formate  
Kinetic mechanism for the reaction between methanol and water over a Cu-ZnO- $Al_2O_3$  catalyst 145
- Fries rearrangement  
Direct Fries reaction of resorcinol with benzoic acids catalyzed by zeolite H-beta 87
- gas-phase reaction  
Homogeneous and heterogeneous contributions to the catalytic oxidative dehydrogenation of ethane 49
- gold  
Influence of metal particle size and effect of gold addition on the activity and selectivity of Pt/ $Al_2O_3$  catalysts in the reduction of nitric oxide by methane L11
- hexane reforming reaction  
Role of sulfur in a skewed reforming catalyst with a low platinum content and a high rhenium-to-platinum ratio 133
- HfO<sub>2</sub>  
Catalytic and spectroscopic studies of vanadium oxide supported on group IVb and Vb metal oxides for oxidation of toluene 197
- hydrodesulphurization  
Deep desulfurization of light oil. Part 2: hydrodesulfurization of dibenzothiophene, 4-methyldibenzothiophene and 4,6-dimethyldibenzothiophene L1
- hydrogen fluoride  
Ambient temperature catalytic fluorination of  $C_1$  to  $C_3$  chlorohydrocarbons and related compounds using oxide-supported organic layer catalysts 67
- IR-spectroscopy  
Pillared clays: characterization of acidity and catalytic properties and comparison with some zeolites 23
- isobutene polymerization  
Chlorinated alumina and its catalytic behavior in selective polymerization of isobutene 113
- isomerization  
Calcium oxide as a catalyst for the isomerization of 5-vinylbicyclo[2.2.1]hept-2-ene to 5-ethylidenebicyclo[2.2.1]hept-2-ene in the liquid phase L19
- kinetics  
Complete oxidation of benzene on manganese dioxide by ozone 17  
Kinetic mechanism for the reaction between methanol and water over a Cu-ZnO- $Al_2O_3$  catalyst 145
- light oils  
Deep desulfurization of light oil. Part 2: hydrodesulfurization of dibenzothiophene, 4-methyldibenzothiophene and 4,6-

- dimethyldibenzothiophene L1
- liquid phase  
Calcium oxide as a catalyst for the isomerization of 5-vinylbicyclo[2.2.1]hept-2-ene to 5-ethylidenebicyclo[2.2.1]hept-2-ene in the liquid phase L19
- magnesium oxide catalysts  
Homogeneous and heterogeneous contributions to the catalytic oxidative dehydrogenation of ethane 49
- manganese dioxide  
Complete oxidation of benzene on manganese dioxide by ozone 17
- mechanism  
Kinetic mechanism for the reaction between methanol and water over a Cu-ZnO-Al<sub>2</sub>O<sub>3</sub> catalyst 145
- melt  
Propylene oxide synthesis via propene acetoxylation over supported palladium and platinum catalysts followed by cracking of glycol acetates in a melt of potassium acetate 1
- metal particle size  
Influence of metal particle size and effect of gold addition on the activity and selectivity of Pt/Al<sub>2</sub>O<sub>3</sub> catalysts in the reduction of nitric oxide by methane L11
- methane  
Influence of metal particle size and effect of gold addition on the activity and selectivity of Pt/Al<sub>2</sub>O<sub>3</sub> catalysts in the reduction of nitric oxide by methane L11
- methanol synthesis  
Kinetic mechanism for the reaction between methanol and water over a Cu-ZnO-Al<sub>2</sub>O<sub>3</sub> catalyst 145
- 4-methyldibenzothiophene  
Deep desulfurization of light oil. Part 2: hydrodesulfurization of dibenzothiophene, 4-methyldibenzothiophene and 4,6-dimethyldibenzothiophene L1
- methyl ethyl ketone  
Vanadium oxides as regenerable reagents in the oxidation of butan-2-one to diacetyl 39
- NbO<sub>2</sub>  
Catalytic and spectroscopic studies of vanadium oxide supported on group IVb and Vb metal oxides for oxidation of toluene 197
- nickel sulfide  
Catalytic activity of nickel sulfide catalysts supported on Al-pillared montmorillonite for thiophene hydrodesulfurization 77
- nitric oxide  
Influence of metal particle size and effect of gold addition on the activity and selectivity of Pt/Al<sub>2</sub>O<sub>3</sub> catalysts in the reduction of nitric oxide by methane L11
- organic media  
Novel synthetic method for the catalytic use of thermally stable zirconia: Thermal decomposition of zirconium alkoxides in organic media L25
- oxidative dehydrogenation  
Oxidative dehydrogenation of propane on vanadium supported on magnesium silicates 159
- ozone  
Complete oxidation of benzene on manganese dioxide by ozone 17
- palladium/carbon  
Propylene oxide synthesis via propene acetoxylation over supported palladium and platinum catalysts followed by cracking of glycol acetates in a melt of potassium acetate 1
- phosphoric acid  
Effect of water in the performance of the "solid phosphoric acid" catalyst for alkylation of benzene to cumene and for oligomerization of propene 177
- phosphorus  
Promotional effect of sodium and phosphorus on a V-Mo-O catalyst 103
- pillared clay catalysts  
Pillared clays: characterization of acidity and catalytic properties and comparison with some zeolites 23
- platinum-alumina  
Influence of metal particle size and effect of gold addition on the activity and selectivity of Pt/Al<sub>2</sub>O<sub>3</sub> catalysts in the reduction of nitric oxide by methane L11
- polyhydroxybenzophenones  
Direct Fries reaction of resorcinol with benzoic acids catalyzed by zeolite H-beta 87
- presulfidation  
Role of sulfur in a skewed reforming cata-

- lyst with a low platinum content and a high rhenium-to-platinum ratio 133
- promotive effect
  - Promotional effect of sodium and phosphorus on a V-Mo-O catalyst 103
- propane
  - Oxidative dehydrogenation of propane on vanadium supported on magnesium silicates 159
- propene oligomerization
  - Effect of water in the performance of the "solid phosphoric acid" catalyst for alkylation of benzene to cumene and for oligomerization of propene 177
- propylene glycol acetate cracking
  - Propylene oxide synthesis via propene acetoxylation over supported palladium and platinum catalysts followed by cracking of glycol acetates in a melt of potassium acetate 1
- Raman)
  - Oxidative dehydrogenation of propane on vanadium supported on magnesium silicates 159
  - Catalytic and spectroscopic studies of vanadium oxide supported on group IVb and Vb metal oxides for oxidation of toluene 197
- reaction kinetics
  - Pillared clays: characterization of acidity and catalytic properties and comparison with some zeolites 23
  - Kinetics of the synthesis of 1,4-butyne diol over a copper-bismuth/magnesium silicate catalyst 123
- reduction
  - Influence of metal particle size and effect of gold addition on the activity and selectivity of Pt/Al<sub>2</sub>O<sub>3</sub> catalysts in the reduction of nitric oxide by methane L11
- selectivity (diacetyl)vanadium oxide
  - Vanadium oxides as regenerable reagents in the oxidation of butan-2-one to diacetyl 39
- sepiolite as support
  - Oxidative dehydrogenation of propane on vanadium supported on magnesium silicates 159
- silicon pyro-phosphate
  - Effect of water in the performance of the "solid phosphoric acid" catalyst for alkylation of benzene to cumene and for oligomerization of propene 177
- silicon *ortho*-phosphate
  - Effect of water in the performance of the "solid phosphoric acid" catalyst for alkylation of benzene to cumene and for oligomerization of propene 177
- skewed Pt-Re reforming catalyst
  - Role of sulfur in a skewed reforming catalyst with a low platinum content and a high rhenium-to-platinum ratio 133
- solid-base
  - Calcium oxide as a catalyst for the isomerization of 5-vinylbicyclo[2.2.1]hept-2-ene to 5-ethylidenebicyclo[2.2.1]hept-2-ene in the liquid phase L19
- solid phosphoric acid
  - Effect of water in the performance of the "solid phosphoric acid" catalyst for alkylation of benzene to cumene and for oligomerization of propene 177
- spectroscopy
  - Catalytic and spectroscopic studies of vanadium oxide supported on group IVb and Vb metal oxides for oxidation of toluene 197
- steam reforming
  - Kinetic mechanism for the reaction between methanol and water over a Cu-ZnO-Al<sub>2</sub>O<sub>3</sub> catalyst 145
- substituent effects
  - Direct Fries reaction of resorcinol with benzoic acids catalyzed by zeolite H-beta 87
- sulphur tetrafluoride
  - Ambient temperature catalytic fluorination of C<sub>1</sub> to C<sub>3</sub> chlorohydrocarbons and related compounds using oxide-supported organic layer catalysts 67
- superacid
  - Chlorinated alumina and its catalytic behavior in selective polymerization of isobutene 113
- supports TiO<sub>2</sub>
  - Catalytic and spectroscopic studies of vanadium oxide supported on group IVb and Vb metal oxides for oxidation of toluene 197
- synthesis
  - Propylene oxide synthesis via propene acetoxylation over supported palladium

- and platinum catalysts followed by cracking of glycol acetates in a melt of potassium acetate 1
- Ta<sub>2</sub>O<sub>5</sub>**  
Catalytic and spectroscopic studies of vanadium oxide supported on group IVb and Vb metal oxides for oxidation of toluene 197
- thermal decomposition**  
Novel synthetic method for the catalytic use of thermally stable zirconia: Thermal decomposition of zirconium alkoxides in organic media L25
- thiophene hydrosulphurization**  
Catalytic activity of nickel sulfide catalysts supported on Al-pillared montmorillonite for thiophene hydrosulfurization 77
- toluene disproportionation**  
Pillared clays: characterization of acidity and catalytic properties and comparison with some zeolites 23
- toluene oxidation**  
Catalytic and spectroscopic studies of vanadium oxide supported on group IVb and Vb metal oxides for oxidation of toluene 197
- vanadia**  
Catalytic and spectroscopic studies of vanadium oxide supported on group IVb and Vb metal oxides for oxidation of toluene 197
- vanadium**  
Oxidative dehydrogenation of propane on vanadium supported on magnesium silicates 159
- vanadium-molybdenum oxide**  
Promotional effect of sodium and phosphorus on a V-Mo-O catalyst 103
- vanadium phosphorus oxide**  
Vanadium oxides as regenerable reagents in the oxidation of butan-2-one to diacetyl 39
- 5-vinylbicyclo[2.2.1]hept-2-ene**  
Calcium oxide as a catalyst for the isomerization of 5-vinylbicyclo[2.2.1]hept-2-ene to 5-ethylidenebicyclo[2.2.1]hept-2-ene in the liquid phase L19
- XPS**  
Catalytic and spectroscopic studies of vanadium oxide supported on group IVb and Vb metal oxides for oxidation of toluene 197
- XRD**  
Catalytic and spectroscopic studies of vanadium oxide supported on group IVb and Vb metal oxides for oxidation of toluene 197
- zeolite H-beta**  
Direct Fries reaction of resorcinol with benzoic acids catalyzed by zeolite H-beta 87
- zeolites**  
Pillared clays: characterization of acidity and catalytic properties and comparison with some zeolites 23
- zirconia**  
Novel synthetic method for the catalytic use of thermally stable zirconia: Thermal decomposition of zirconium alkoxides in organic media L25
- zirconium alkoxide**  
Novel synthetic method for the catalytic use of thermally stable zirconia: Thermal decomposition of zirconium alkoxides in organic media L25
- ZrO<sub>2</sub>**  
Catalytic and spectroscopic studies of vanadium oxide supported on group IVb and Vb metal oxides for oxidation of toluene 197
